Assignment 0123 Feedback

Proficiency *1a* can only go as high as | in this assignment because, well, we've only just begun. Future assignments will build you up to a + eventually.

Abdulrahman M. Alzaid

AbdulZaid / mr.d7oom@gmail.com

1a — Looks like you're well on your way to a decent level of command line proficiency. Why the discrepant formats though? Your command crib sheet looks like it is done in LaTeX, but your names and symbols crib sheet looks like it is done in a conventional word processor. Stay consistent. And, if you do choose to do LaTeX, commit your source (*.tex*) files—those are the ones that get edited anyway.

As for your DIY repository, no problems there—congratulations, you can do server-side stuff :) (|)

4d — No problems with looking up information and restating them. (+)

4e — Version control frequency and messages are appropriate for the work done. (+)

4f — Assignment done on time. (+)
