

Q2. Run something lengthy (ping, vm_stat/vmstat loooooong download, finding the quadrillionth prime number...) inside screen; logout of that computer entirely, login again, and reconnect to screen to prove to yourself that the process has continued to run without interruption. Submit screenshots of your long-running command before you logged out, then after you reconnected to it.

The logo consists of two parts. The first part is 'LMU' in large, outlined letters, followed by a small 'COM' also in outline. The second part is 'COM' in a similar outlined font, followed by another 'COM' in a slightly different outlined style. All letters are composed of vertical and horizontal bars forming their shapes.

Rule #1: Read The Manual.

Q3. Learn how to use `du`, which tells you how much disk space you're using in a given directory

(a) Which first-level subdirectory in `~` is taking up the most space? Submit the command that includes this information in as little output as possible.

(b) Submit a command that displays only the disk usage of directories matching some regular expression. Hint: `l`.

A.

(a) As shown below the subdirectory that's using the most space is `Movies` = 156G
